Jackie,

Al Garver of the Synthetic Turf Council told me that one of their members had produced a spread sheet that organizes most all of the scientific data that has been conducted on turf and crumb rubber. I would like to send this to you late today or on Monday. Perhaps it will be helpful to EPA's effort to be responsive to the House Commerce Committee. As soon as I receive the information, I will pass it along to you.

But your additional information is helpful to me. I may go sooner than I thought.

I know this committee well. With a bipartisan letter like this and a return date, it is the committee's procedure for setting up an oversight hearing. I sent this letter to you as a courtesy and you probably read it before the Administrator.

Jackie,

This just came out today.

Have you seen it.

Walt
